## ACADEMIC YEAR THEME

### MAKING HISTORY

History is the study of past events. Some historical events have changed the world for the better and some have had negative impacts on people and the places they live. History provides an opportunity for reflection and ways to improve the world for future generations. This academic year, we will travel in time and examine the past up to present time and events that have shaped our world and social trends. Each campus will find unique and creative ways to explore this theme as the year unfolds through Teaching Methods and topics chosen for classes taught by Global Campus participants.

### A YEAR OF CELEBRATION!

What a year for Global Campuses! It's the 20th year since its founding in May 2001 as a small, grassroots nonprofit. Global Campuses believed that adults across the continuum of disabilities could create, manage and sustain their advanced educational experiences as the teaching faculty, students, and staff of their Global Campus. From the start, you, as campus participants have accepted the opportunity and continue to reach far beyond the original imagining. There are so many stories to tell about your achievements, and we all look forward to celebrating this important anniversary in many ways. Commemorating important milestones along the way is at the core of the Global Campus Experience. One such occasion took place in September 2021, when the Global Campus community celebrated the 10-year anniversary of the founding of Global Campus Shiremont! Congratulations to all Campus Participants!
