

Happy High Summer from Global Campuses Foundation!

Now seemed like the perfect moment to share just a handful of the amazing things that your support makes possible for Global Campus participants. Every day, GC scholars discover new opportunities to maximize their potential and play vital roles in their communities. We couldn't do it without you.

In the following pages you'll read about geocaching at Lake Caspian, the history of technology in Vermont, and the inner workings of a television news team. One of our founding participants from Thailand shares her powerful story of success and triumph.

In June, over a hundred people gathered in Waterbury to celebrate 10 years of achievement at Global Campuses in Randolph, Bradford, and Moretown. In August, GCF will host an all-campus Art Show and Reception at the Chandler Center for the Arts in Randolph. In September, we'll join with our Special Needs Alliance partners in the Upper Valley for a Move-A-Thon, a timed 5k run, walk and roll.

Every day, Global Campus scholars are on the move with activities that combine the best of summer fun with unique opportunities to learn and grow.

Thank you for making this possible. Whether you're on the porch or on a plane, at the beach or on a mountain trail, in the garden or in the water, we want you to know that your support is hard at work all over Vermont, New Hampshire and the world.

We hope you enjoy this sneak peek into the Global Campus Summer Interim session.

Yours in gratitude,

Matthew DeGroot
Executive Director
